

1. Create a folder for assignment2 and copy the files you created during the assignment 1 to the folder. Modify index.html file inside <head></head> as follows.

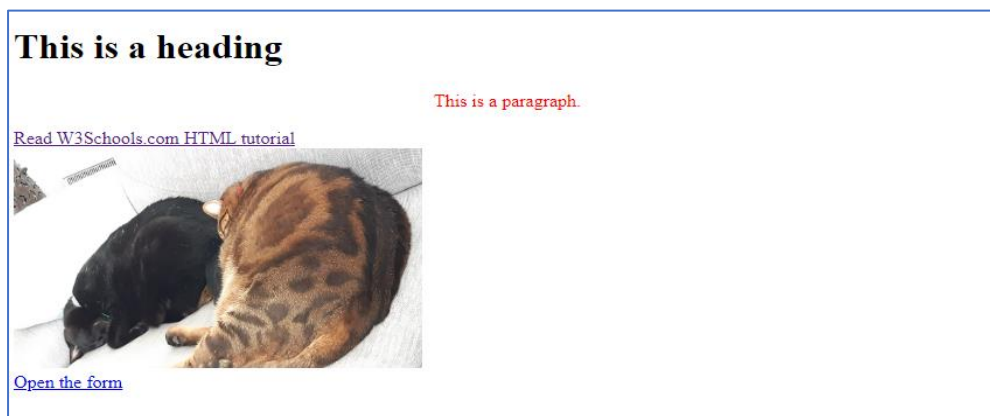

```
<head>
  <meta charset="UTF-8">
  <link rel="stylesheet" href="styles.css">
  <title>Assignment3</title>
</head>
```

2. Create a file styles.css in the same folder as index.html, and then type it the following content.

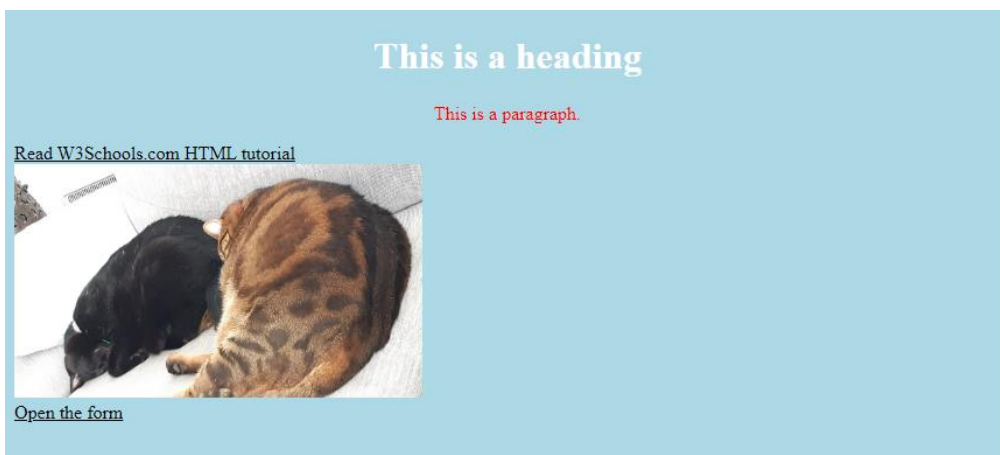

```
p {
  color: red;
  text-align: center;
}
```

This orders the browser to show paragraphs' text in the center of lines and changes the text color to red.

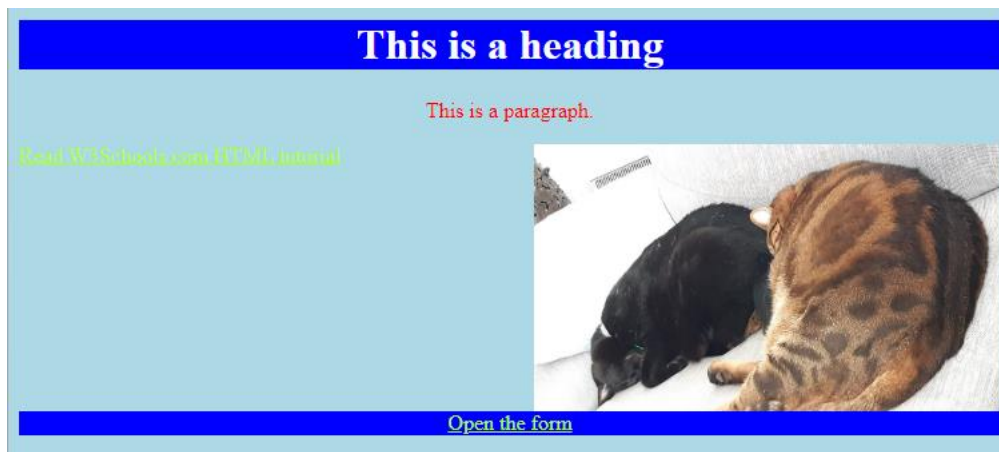

⇒ Web browser window:

3. Modify the style (CSS file) of the document as follows:

4. Modify the location of the object on windows with the style as follows:

zip the modified files and return them to Moodle as assignment 2
